

# Conversion Manual

## MAPPING OF ALL 2024-2025 BIENNIUM JOB CLASSIFICATION TITLES TO THE 2026-2027 BIENNIUM MASTER LIST

<p>The State Auditor's Office's State Classification Team partnered with the Office of the Comptroller of Public Accounts to produce a manual to assist agencies with changes the 89th Legislature made to the State's Position Classification Plan (Plan).</p> <p>This manual explains the changes and the necessary payroll actions agencies must make during the end-of-year conversion process.</p> <p><a href="#">Please review the Conversion Manual Guide for more information.</a></p>		
The following legend is provided to assist agencies with interpreting the conversion manual.		
Column Labels	Description	
Occupational Category, Current Job Classification Series, Current Job Classification No., Current Salary Group, Current Job Classification Title	Lists job classification titles as approved for the 2024-2025 biennium.	
New Job Classification Series, New Job Classification No., New Salary Group, New Job Classification Title	Lists job classification recommended changes approved for the 2026-2027 biennium.	
<b>Type of Change</b> (Refers to the type of change occurring with each job classification title. In some situations, more than one change may affect a job classification title.)	<b>New Job Classification</b>	New job classification titles are added to address gaps in the current Plan, provide agencies with new titles that more clearly distinguish the work being performed that is not captured within the Plan, and create new levels in current job classification series. For example, the User Experience/User Interface (UX/UI) Designer job classification series.
	<b>Reallocation</b>	Reallocations occur when the assigned salary group for a job classification is changed. Reallocations to higher salary groups help to better align the classification with the average market pay and help create and maintain salary parity within the Plan between jobs that are similar in nature. For example, the salary group for Licensed Vocational Nurse I was reallocated from A15 to A16. Employees who are in job classification titles that are being reallocated must be paid at least the minimum of the new salary group.
	<b>Title Change</b>	Title changes occur to provide a better description of the job functions, and reflect current industry terminology. For example, changing the Texas Works Advisor job classification series to Eligibility Advisor would provide a better description of the broad duties and responsibilities within the job classification series. In addition, some job classification titles were changed and renumbered if a level within a job classification series was deleted.
	<b>Deletion</b>	Deletions occur when a job classification title is not utilized, underutilized, or has job duties that overlapped with those of other job classification titles. For example, Psychiatric Clinical Director was deleted because the job classification title was not used.
	<b>New Salary Group</b>	A new salary group is added to a salary schedule to provide state agencies the flexibility needed to offer market-competitive salaries to help recruit and retain employees in certain job classification titles. Specifically, salary group B37 was added to Salary Schedule B.
	<b>Salary Schedule Change</b>	Salary schedule changes occur when the job classification title is reassigned to another salary schedule to reflect the changing nature and complexity of the job. For example, the Respiratory Care Practitioner job classification series was reassigned from Salary Schedule A to Salary Schedule B.
	<b>Classification Number Change</b>	Classification number changes occur to ensure that the Plan is properly numbered, to address any numbering inconsistencies, and to enhance the overall consistency and usability of the Plan. For example, see the Management Analyst job classification series.
<b>Type of Action</b> (Refers to whether the change in the payroll system will be automatic or manual.)	<b>Automatic Conversions</b>	Agencies that use the Centralized Accounting and Payroll/Personnel System (CAPPS) or the Uniform Statewide Payroll/Personnel System (USPS) do not need to manually process classification or title changes in this category. Agencies that report to the Standardized Payroll/Personnel Reporting System (SPRS), including CAPPS Hub agencies, should adhere to the reporting instructions in the Fiscal Policies and Procedures (FPP) related to SPRS conversion instructions.
	<b>Manual Conversions</b>	Agencies will need to manually code information for deletions and new job classification titles in this category. Agencies should determine the appropriate job classification title based on employees' duties and responsibilities and agencies' organizational structures. In some cases, this determination may result in an additional cost to the agency.
