STATE CLASSIFICATION JOB DESCRIPTION

ENVIRONMENTAL PROTECTION SPECIALIST III

General Description

Performs highly complex (senior-level) environmental or public health and safety work. Work involves coordinating inspections, surveys, assessments, or investigations to ensure compliance with environmental laws; evaluating environmental impact; and identifying health and safety hazards and other issues that can affect the health of the environment or population. May supervise the work of others. Works under limited supervision, with considerable latitude for the use of initiative and independent judgment.

Examples of Work Performed

Coordinates inspections, field surveys, assessments, or investigations to ensure compliance with applicable state and federal environmental or public health laws, rules, regulations, policies, and procedures.

Coordinates with staff and other state, federal, and regulatory agencies and various groups on environmental or public health issues; and designs and monitors programs to address and mitigate identified issues.

Coordinates and monitors the effectiveness of environmental or public health programs.

Evaluates the environmental or public health impact of activities in one or more of the following areas: noise pollution, air and water quality, wetlands, hazardous materials, socioeconomic areas, biological resources, geological areas, or cultural or historic resources.

Evaluates radiological, environmental, or public and consumer health and safety impact of facilities or products.

Maintains and operates environmental or public health monitoring equipment.

Prepares and makes presentations about environmental or public health programs and issues.

Prepares or approves correspondence, responses to environmental or public health assessment requests, technical reports, impact statements, or programmatic assessments.

Provides guidance and interpretation on environmental or public health laws, rules, regulations, and procedures.

Represents the department regarding environmental or public health issues.
