GENERAL DESCRIPTION

Performs advanced (senior-level) orthopedic work. Work involves coordinating the manufacture and repair of specialized orthopedic equipment or orthopedic devices; evaluating individuals with disabilities for adaptive equipment; and designing specialized orthopedic devices. Works under limited supervision, with considerable latitude for the use of initiative and independent judgment.

EXAMPLES OF WORK PERFORMED

Coordinates the production, maintenance, and repair of orthopedic equipment.

Coordinates the fittings of adaptive equipment.

Coordinates the manufacture and preventive maintenance of modified and customized adaptive equipment or orthopedic devices.

Designs and prepares plans and specifications for custom and adaptive equipment.

Inspects jobs in progress and performs quality assurance checks on adaptive equipment.

Measures individuals with disabilities using adaptive measuring devices.

Performs related work as assigned.

GENERAL QUALIFICATION GUIDELINES

EXPERIENCE AND EDUCATION

Experience in orthopedic equipment manufacture and repair work. Graduation from a standard senior high school or equivalent is generally preferred. Experience and education may be substituted for one another.

KNOWLEDGE, SKILLS, AND ABILITIES

Knowledge of orthopedic equipment, of maintenance techniques and procedures, of anatomical terminology, and of occupational and physical therapy procedures.

Skill in the use of tools and equipment for the manufacture and maintenance of adaptive equipment.
Ability to fabricate and repair orthopedic equipment, to prepare specifications, and to communicate effectively.
