

226 - Sixth Court of Appeals District, Texarkana

Workforce Summary Document Prepared by the State Auditor's Office Classification Team

State Classification Team Observations

Based on a review of agency statistics and related information, the following items are worth noting:

- Excluding interagency transfers, turnover within the agency (14.8 percent) was lower than the state average (15.8 percent) and the average for all Article IV agencies (18.0 percent) during fiscal year 2006.
- While full-time equivalent (FTE) caps are set for the appellate courts, they are for informational purposes only and are not considered a limitation.
- The agency did not participate in the Survey of Organizational Excellence, which is a survey instrument that measures employees' workplace satisfaction as well as employees' perceptions of the effectiveness of the agency.
- Pay for employees in salary schedules A and B is distributed throughout the entire pay range.
- The agency has not had any positions within the scope of recent classification compliance audits.
- The salary action represented as a demotion in fiscal year 2006 resulted from a change in salary group. This change occurred because a classified employee applied for another position in a classification that was assigned to a lower salary group. The employee actually received a pay increase as a result of this action.
